The GDC met on the complaint that was received with regard to the water leaks in the slabs. The committee observed that some part of the slabs need renovation and this ~~is~~ has been informed to the higher officials. In some parts the leaks are due to stagnation of water due to the debris of leaves on the slab. It has been decided to review the cleaning of the slab near the water outlets regularly and see that there is no stagnation of water.

The committee received a complaint with regard to the overflow of ~~water~~ drainage water from the Girls Hostel on the campus of the college. It is causing a lot of inconvenience to the students who come to college in that way. Hence, a solution has been requested. The college has immediately written to the Sub collector and the Municipal Commissioner on the issue and they have informed us on the very same day that an underground drainage pipe line would be laid to provide outlet to the waste water and hence the problem has been resolved.
