Remedial Coaching

INTRODUCTION

Coaching Objective:

A Remedial Coaching is to be organized as a fifteen days intensive coaching for students who have fallen behind in their studies and failed in concerned paper in every semester before the commencement of the supplementary exams. The main objective of the coaching is to join the students along with advanced learners.

The syllabus for the Coaching is framed according to their standards so that they learn the subjects as a result they would pass in failed subjects.

The ultimate aim of remedial teaching is to help pupils who have fallen behind to learn to the best of their ability and to bring them back into the mainstream classes as far as possible.

Staff from Botany Department are involved in the Remedial coaching.

Students are to be classified based on their performance as Advanced learners, moderate learners and slow learners. The remedial coaching will be given to slow and moderate learners whose performance is least in semester exams conducted by affiliated Universities.

The test will be conducted at the end of the coaching to assess their level of performance.

Remedial Coaching

INTRODUCTION

Coaching Objective:

A Remedial Coaching is to be organized as a fifteen days intensive coaching for students who have fallen behind in their studies and failed in concerned paper in every semester before the commencement of the supplementary exams. The main objective of the coaching is to join the students along with advanced learners.

The syllabus for the Coaching is framed according to their standards so that they learn the subjects as a result they would pass in failed subjects.

The ultimate aim of remedial teaching is to help pupils who have fallen behind to learn to the best of their ability and to bring them back into the mainstream classes as far as possible.

Staff from Botany Department are involved in the Remedial coaching.

Students are to be classified based on their performance as Advanced learners, moderate learners and slow learners. The remedial coaching will be given to slow and moderate learners whose performance is least in semester exams conducted by affiliated Universities.

The test will be conducted at the end of the coaching to assess their level of performance.
